

Psychology Officer

Medical Team Description:

The Medical team is responsible for everything regarding the well-being and training of the analog astronauts. We take care of their athletic preparation, their nutrition and food intake during the mission but also during the extreme environment training. We provide them with a sports schedule that will prepare them for the training and in the base, organise a tight routine for their physical and psychological upkeep. We also have to organise psychological check-ins during the missions to care and monitor their behaviour during isolation. On top of this, we organise medical training online and in person to train our future astronauts. The Team is divided into sub-teams that will all have separate tasks but are required to meet together at least once every two weeks for check-ins with the heads and to create a more friendly coworking environment.

Psychology Officer Description:

As a Psychology Officer, you will work closely with the astronaut team to monitor and assess their psychological growth throughout the mission and their well-being. Regular psychological evaluations and tests shall be prepared for the astronauts and consistent feedback provided to them. Psychology officers will also help assess crew compatibility metrics to assess which astronauts work best together.

Key information for role:

- **Average hours required per week** - 2-4 hours regularly / 8-10 hours when astronauts require psychological evaluations (~1/month).
- **Tasks and Responsibilities:**
 - Attend regular meetings with the medical team to give and collect updates for the heads
 - Create a questionnaire to be used in the astronaut's selection process to assess their psychological state
 - Monitor the astronaut's psychological well-being and growth during the whole year

- Prepare forms and Standard Operating Procedures to be followed during the psychological follow-up during the mission
- Create and Innovate a way to journal and monitor the astronaut's behaviours, possibly working with experiments from the science team.
- Participating in creating a specialised training and-or online class for the astronauts.
- **Essential Requirements for Role:**
 - Dedication
 - Teamwork
 - Base knowledge in the field of work
 - English fluency
 - Strong communications skills
 - Will to learn and grow together :)
 - Pursuing a degree in Psychology, Biomedical engineering or similar
- **Desirable traits for role**
 - Prior knowledge in Excel
 - Experience working in student organisations
 - Experience working in psychology analogue research
 - Multi-lingual skills (French, Spanish, Italian are advantages)
 - Driver's licence

Inclusivity Statement

Don't meet all the requirements? That's okay, one thing all applicants that are chosen show in common is their passion for Asclepios and their passion for the mission. Feel free to apply for any role you think you will enjoy. At Asclepios, we have a very welcoming environment and ensure no one is left behind. We are one big international family!
